

Homeopathic medicines for

Acne

Your Guide to Acne

1. Hepar Sulphuris

Common Name: Calcium Sulphide

“Painful acne that tends to form pus”

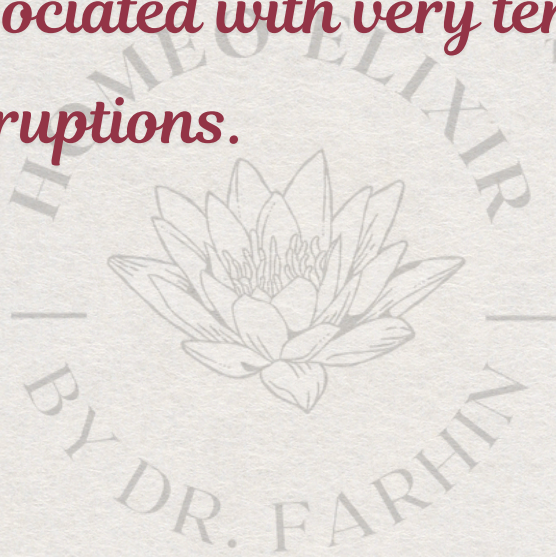

Classically associated with very tender pimples and pustular eruptions.

2. Silicea

Common Name: Pure Silica

“Deep, stubborn & slow-healing acne”

Traditionally considered for recurrent pustules and eruptions that heal slowly.

3. Pulsatilla Nigricans

Common Name: Wind Flower

“Acne associated with hormonal changes”

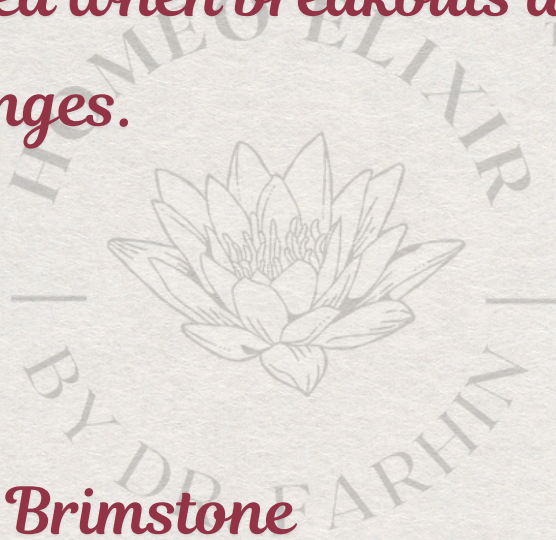

Often considered when breakouts appear around menstrual changes.

4. Sulphur

Common Name: Brimstone

“Acne with oily, itchy & irritated skin”

Traditionally associated with red, itchy or burning eruptions.

5. Kali Bromatum

Common Name: Potassium Bromide

“Acne with deep pustules & scarring tendency”

Classically associated with persistent pustular eruptions, particularly on the face, chest and back.

6. Natrum Muriaticum

Common Name: Sodium Chloride

“Acne with oily skin & recurring breakouts”

Considered constitutionally when greasy skin and recurrent acne fit the overall symptom picture.
