

Homeopathic medicines for

Infertility

Your Guide to Infertility

1. Sepia Officinalis

Common Name: Cuttlefish Ink

“Infertility with hormonal & menstrual disturbances”

Traditionally considered when conception difficulties accompany irregular cycles and other reproductive complaints.

2. Pulsatilla Nigricans

Common Name: Wind Flower

“Infertility with delayed or irregular periods”

Classically associated with changeable, delayed or absent menstrual cycles.

3. Calcareo Carbonica

Common Name: Calcium Carbonate

“Fertility concerns with heavy or irregular cycles”

Traditionally considered when menstrual disturbances and constitutional symptoms accompany difficulty conceiving.

4. Natrum Muriaticum

Common Name: Sodium Chloride

“Fertility concerns with menstrual irregularity”

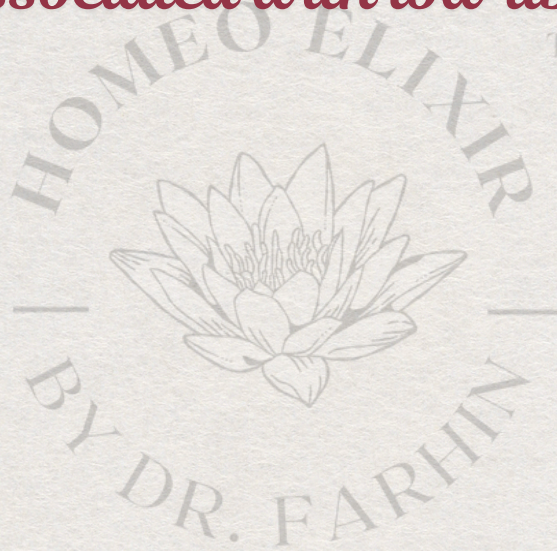

Considered constitutionally when reproductive complaints occur alongside an irregular menstrual pattern.

5. Agnus Castus

Common Name: Chaste Tree

“Male infertility with reduced sexual vitality”

Traditionally associated with low libido and sexual weakness.
