

Homeopathic medicines for

Diabetes mellitus

Your Guide to diabetes mellitus

1. Syzygium Jambolanum Q

“Diabetes with slow-healing sores”

Traditionally considered for excessive thirst and urination, weakness, and diabetic cases with delayed wound healing.

2. Abroma Augusta Q

“Diabetes with menstrual disturbances”

Considered when diabetic symptoms occur alongside heavy or prolonged periods, marked weakness, thirst and frequent urination.

3. Cephalandra Indica Q

“Diabetes with burning complaints”

Traditionally associated with increased thirst and hunger, frequent urination, and burning sensations involving the palms, soles or urinary tract.

4. Chionanthus Virginica Q

“Diabetes with digestive & liver complaints”

Considered when diabetic symptoms coexist with sluggish digestion, coated tongue, poor appetite or liver-related complaints.

5. Gymnema Sylvestre Q

“Diabetes with urinary & kidney complaints”

Traditionally used in homeopathic practice when frequent urination and renal complaints accompany the diabetic symptom picture.
